XM-6003B - Polyester 65%/ Cotton 35% Tape, Budget Silver Reflective Material

<http://xmsilverline.com/en/fabrics/xm-6003b-detail.html>

Silver reflective tape with basic retro-reflective performance is best suited for HiVis vests, jackets, pants etc. It is made with polycotton backing and micro-beads layer on the surface. Retroreflection of micro-beads provides better safety for the workers. Available in 1", 2", 3", 4" width. This budget type of trim is made of our XM-6003B. XM-6003B ribbon has high reflectivity, it is very light and it better fits light clothes, like safety vests. Home wash 60°C.

Roll length 100m
